FIFTY-SECOND

ANNUAL REPORT

OF

THE WORKERS'

COMPENSATION BOARD

SASKATCHEWAN

For the Calendar Year

1981

To His Honour:

Lieutenant Governor of the Province of Saskatchewan.

May It Please Your Honour:

I herewith submit for your consideration the Annual Report of The Workers' Compensation Board for the Calendar Year 1981.

Respectfully yours,

Gordon J. Snyder

Minister of Labour.

Regina, Saskatchewan.

THE WORKERS' COMPENSATION BOARD (SASKATCHEWAN)

FIFTY-SECOND ANNUAL REPORT

OF

THE WORKERS' COMPENSATION BOARD

SASKATCHEWAN

FOR THE YEAR ENDED 31 DECEMBER 1981

To His Honour The Lieutenant Governor:

The Board is pleased to submit its Annual Report for the year ended 31 December 1981.

The year saw significant amendments to The Workers' Compensation Act, 1979, providing for improved benefits and administration and greater equity in the charging of costs.

In addition, during 1981 the Board:

- continued its practice of encouraging meetings with organizations concerned with the aministration of the Act.
- as required by Section 38 of the Act increased the maximum annual wage rate for assessment and compensation purposes from $24,000 to $26,000 effective 1 January 1982. The increase is not retroactive, applying only to accidents occurring on or after this date.
- awarded merit rebates in respect to 1980 operations to 13,912 employers totalling $4,472,558. Average rebate was $321.49 representing 8.62% of assessment in 1980.
- pursuant to Section 145 of the Act awarded grants to four employer associations organized for the purpose of injury prevention and safety.
- continued to work on the planning of a new facility for physical rehabilitation.

CLAIMS

A total of 41,794 claims were reported* during 1981, a .47% increase over the 41,598 recorded in 1980.

Injuries settled+ for the ten year period from 1972 through 1981 were as follows:

Year	Fatal	Permanent Impairment	Temporary Impairment	No Time Loss	Total
1972	49	402	11,704	14,788	26,943
1973	31	278	11,208	13,352	24,869
1974	53	174	13,134	15,186	28,547
1975	45	369	13,776	15,432	29,622
1976	40	530	14,989	19,103	34,662
1977	32	657	15,546	19,730	35,965
1978	47	714	14,722	18,757	34,240
1979	42	732	16,219	21,441	38,434
1980	58	528 □	17,182 □	20,743	38,512
1981	76	1012 ○	17,858 ○	21,334	40,280

Approximately 47% of the settled claims involved time loss beyond day of injury.

Upon request earlier claims may be reviewed and further entitlement authorized if warranted. In 1981 a total of 3392 claims were re-opened.

Workers' compensation is essentially an income maintenance program. Accordingly every effort is made to ensure prompt delivery of benefits. To achieve this goal administrative procedures are under constant review.

* Reported injuries refers to those reported during the calendar year, whether the injury occurred in the given year or prior.

\+ Settled injuries does not include claims on which no action was taken, claims disallowed, duplicate claims, etc.

□ Includes 41 permanent functional impairment lump sum awards.

● Includes 249 permanent functional impairment lump sum awards.

ASSESSMENTS

Employers are assessed annually on the earnings of their employees to provide a fund for the payment of compensation, medical aid, vocational rehabilitation, physical rehabilitation, grants to employer associations organized to prevent injury and promote safety, administration of the Act, administration of the industrial safety program under the Occupational Health and Safety Act, 1978, and the remuneration, travel and other expenses of the Worker's Advocate.

While the Injury Fund is one and indivisible with liability placed on all industry collectively, the industries under the Act are divided into various classes and sub-classes. Separate accounting is kept of assessment received and injury costs for each industry classification. Each class is in essence a mutual insurance association of the employers comprising it. The Government of Canada for whom the Board administers claims for injury to its employees in Saskatchewan under the Government Employees Compensation Act is excepted.

The Disaster Reserve is designed to prevent adverse financial consequences to an employer or industry classification as a result of the excessive costs accruing to a disaster. The Second Injury Fund provides financial relief to employers when disability from an injury is enhanced because of an unrelated pre-existing condition.

All employers under the Act are required to file with the Board by the last day of February each year a return showing the actual wages paid during the preceding year together with an estimate of the payroll for the current year. Assessment is made on the estimated payroll subject to adjustment when actual payroll is submitted the following February.

Assessment rates are established after considering cost experience, the financial positions of the industry classification, the reserves required for outstanding claims and pensions and the cost of administering the Act.

The Board met with 29 employer groups and associations in connection with setting 1982 provisional assessment rates.

Appreciating the need for employers to have early advice of assessment rates for the coming year the Board provided this information by mid-November. However, employers are encouraged to refer to Schedules 2 and 3 of this report which identify the financial position of each industry classification, the primary indicator of assessment rate change.

The number of employers, average rates of assessment and payroll assessed for the ten year period from 1972 to 1981 are as follows:

Year	No. of Employer Accounts Processed	Average Rate Of Assessment	Assessable Payroll
1972	18,205	1.02	768,681,170
1973	19,245	1.45	880,790,057
1974	19,945	1.82	1,076,921,986
1975	22,692	2.14	1,461,531,244
1976	23,694	2.21	1,901,145,146
1977	25,092	2.16	2,259,061,528
1978	26,019	1.92	2,778,331,505
1979	27,444	1.70	3,180,479,750
1980	28,822	1.42	3,629,755,085
1981	29,763	1.32	4,101,177,304
		(provisional)	(provisional)

APPEALS

Due to the volume of claims the members of the Board cannot be involved in the initial determination of a worker's entitlement for wage loss compensation or permanent functional impairment. As well it is Board policy that initial appeals of decisions be dealt with by Committees established primarily for this purpose.

Where doubt exists regarding entitlement the case is referred to a Committee composed of senior members of the Claims Department for decision. If the claim is disallowed the worker is provided with a written explanation for the action and informed of the right to appeal to the members of the Board.

Appeals concerning permanent functional impairment are dealt with by a Committee composed of senior members of the Claims Department referred to as the Earnings Replacement Committee. Workers are informed of their right to appeal decisions of the Committee to the Board.

During the year 92 workers were examined by independent Medical Boards as provided for by the Act, while 2 workers elected to be examined by a Medical Review Panel. The decision of the latter body is binding on both the worker and the Board with respect to medical matters.

Committees of senior staff members consider initial appeals by employers on assessment and claims matters. Subsequent appeals are dealt with by the Board. The Board handled 191 appeals during 1981.

The office of the Worker's Advocate was established by the provincial government to assist workers experiencing difficulty with their claims. The Worker's Advocates are employees of the provincial Department of Labour completely independent of The Workers' Compensation Board but with full access to claims records.

Employers and workers may utilize the services of the Ombudsman concerning any ruling of the Board after all means of appeal provided for in the Act have been pursued.

PENSIONS AND PAYMENTS TO DEPENDANTS

Pensions payable to disabled workers and dependants of deceased workers under prior legislation and payments to dependants of deceased workers under The Workers' Compensation Act, 1979 are provided for by setting aside capitalized reserves which, together with interest earned, are sufficient to meet monthly requirements. At 31 December 1981 the amount standing to the credit of the Pension Reserve Fund was $127,800,046.

Pensions issued to 256 workers injured when former Acts were in effect increased the liability of the Pension Reserve by $12,482,835. Liability amounting to $2,643,954 accrued to payments made to dependants of deceased workers under The Workers' Compensation Act, 1979. In total the liability of the Pension Reserve increased by $15,126,789 during 1981.

Payments being issued at the end of 1981 compared to the previous year allowing for deaths, remarriages and dependent children terminating or returning to school are:

Prior Legislation	1981	1980
Spouses	496	507
Children	370	492
Other Dependants	6	9
Disabled Workers	5,410	5,172
Workers' Compensation Act, 1979		
Spouses	21	29
Children	34	49

MEDICAL

The W.C.B. Medical Department consists of five physicians and clerical personnel. All of the physicians have considerable experience in the general practice of medicine prior to employment with the Board. They are selected for their training, experience and judgement. Skills and knowledge peculiar to workers' compensation are developed on the job.

The Medical Officers act as consultants to the Board Members, the Claims Department and the Rehabilitation Department. Only a fraction of total claims are referred to the Medical Department, however, the majority are complicated in some manner.

Medical Officers provide opinions regarding the relationship between injury and work activity. There is usually no need for a Medical Officer's opinion regarding a straightforward traumatic injury, however, industrial diseases and complications of trauma and conditions arising out of and in the course of employment are less easily defined and require considerable medical investigation and expertise.

The Workers' Compensation Act, 1979 with its increased emphasis on rehabilitation has made it necessary to learn much more about claimants including other health problems, physical stature, educational and experience background, etc.

In addition to giving opinions regarding the relationship of injury to work activity and physical limitations in employment, the Medical Officers have a responsibility to monitor the medical treatment that claimants receive to ensure that they do receive appropriate treatment at the appropriate time. This includes communication with attending physicians, arranging consultations and, when indicated, arranging for physical rehabilitation.

Assessment of permanent functional impairment resulting from work injury is also a responsibility of the Medical Department. The majority of injured workers with permanent impairment are examined by the Medical Officers in the W.C.B. office. In some situations, because of the nature of the injury or complications due to other health problems, the assistance of panels of recognized experts is used.

PHYSICAL REHABILITATION

One of the most important functions of The Workers' Compensation Board is rehabilitation. In the typical case, rehabilitation commences immediately after an injury is incurred. The focus is on keeping the adverse effects of injury to a minimum and efforts are directed at achieving maximum recovery with minimum permanent effects in the shortest possible time.

Physical rehabilitation commences with the first aid provided at the job site and transportation to medical attention. It continues through the phase of medical management of the acute injury through the convalescence and, in some cases, the long term medical management of complications or aftereffects.

Compensation paid, as long as there is loss of earning capacity, supplies the injured worker with an income so that he can concentrate on rehabilitation.

In the great majority of cases physical rehabilitation is achieved in the worker's home community under the supervision of a local practitioner using local facilities. When the situation warrants, consultation with or referral to consultants is arranged by the local physician in the local community or the nearest urban centre where such medical expertise is available.

It is estimated that in at least two per cent of all work injuries the nature of the injury is such that specialized physical rehabilitation facilities are required to achieve maximum recovery in the optimum time.

The Workers' Compensation Board has an arrangement with the Wascana Hospital in Regina to provide a comprehensive, co-ordinated physical rehabilitation program. Unfortunately, limitations of space at the Wascana Hospital make it impossible to treat all of the cases that would benefit.

The Physical Rehabilitation Program at the Wascana Hospital is co-ordinated by an experienced physician who is part of a treatment team consisting of clinic nurse, physiotherapists, occupational therapists, remedial gymnast and work assessment and conditioning personnel. The treatment also includes a part time clinical psychologist, occasionally a psychiatrist and other medical consultants when necessary.

The program is a full time, five day a week, out-patient program. Treatment is prescribed according to the needs of the individual and modified according to the response to treatment. Most of the injured workers receive some work conditioning in the Work Unit prior to discharge while those who will be left with permanent restrictions are given a work assessment prior to discharge.

Treatment times vary from one week to several months with the average stay in the range of three to four weeks.

A member of the Claims Department co-ordinates the admissions to the program, the payment of compensation and expenses while on program, etc.

An integral part of physical rehabilitation is vocational rehabilitation which often commences shortly after the worker is injured prior to admission to the Physical Rehabilitation Program. A Vocational Rehabilitation Counsellor is attached to the Physical Rehabilitation Program to ensure that the program is directed at the eventual vocational rehabilitation of the injured worker.

Over the last few years there have been major advances in the field of physical rehabilitation. This includes the use of new modalities of treatment and development of expertise in the control and management of chronic pain. With these advances has come an increased realization that injured workers must not only be physically rehabilitated, they must be psychologically rehabilitated as well in order to achieve the best possible vocational rehabilitation.

It is the opinion of the Board that any proven modalities or techniques available in the world can be available in Saskatchewan. With this in mind physical rehabilitation is continuously updated with the acquisition of available modalities of treatment and the addition of expertise to the treatment team. Because of limitations of space and shortage of expert personnel, the ideal has not been achieved, however, efforts will be continued to improve the Physical Rehabilitation Program.

Plans are underway for the design and construction of a specialized Physical Rehabilitation Centre in Regina. When this centre is completed, it is hoped that all injured workers who would benefit will have access to expert physical rehabilitation.

VOCATIONAL REHABILITATION

The Vocational Rehabilitation Department assists injured workers to return to productive employment following an industrial accident. Rehabilitation services are available to all workers who require employment assistance as a result of a work injury. The first step is returning the worker to pre-injury employment with the original employer. Where this is not possible, the Rehabilitation Department explores the possibility of the worker performing modified duties for the same employer or setting up a training on the job situation in a related occupation. Should the original employer be unable to provide employment within the injured worker's capabilities, a search is carried out for employment in other related industries which may suit the worker's existing skills and experience. If these options are impractical, academic upgrading, technical trades training, other training or relocation may be considered as a means of preparation for productive employment.

Dependent spouses of fatally injured workers are visited to determine if there is anything the Board can do to assist them. Permanently totally disabled workers are visited on an annual basis to offer counselling and assistance.

During the year, 2,280 cases were provided with Vocational Rehabilitation assistance, out of which 1,430 were brought to a resolution and closed from active contact. Of the 1,430 cases which were concluded, 603 workers returned to their regular or modified employment with the pre-accident employer. A total of 271 workers returned to similar or altered employment with other employers. While assisting workers to locate employment, 574 were granted job search financial support totalling $1,148,172. Following a return to suitable employment and suffering a temporary wage loss, 346 individuals were granted wage loss support totalling $566,709.

Sixty-five workers participated in academic educational upgrading at a cost of $67,533. Eighty-four workers availed themselves of technical training at a cost of $129,686. On-the-job work assessments were provided to a total of sixty-four workers at a cost of $123,479.

Training on the job is utilized to assist the employer with the costs of training an injured worker for suitable employment. Forty-five individuals were sponsored in training on the job at a cost of $84,469.

Financial assistance in the amount of $21,510 was extended to sixty-two individuals to enable them to travel for employment search or testing prior to training consideration.

A number of individuals were required to relocate following injury in order to secure suitable employment. The Vocational Rehabilitation Department provided assistance to 23 individuals at a total cost of $19,548.

Modifications were provided to work sites for three employers at a cost of $5,102. Modifications to injured workers' homes were provided to 11 individuals at a cost of $8,462. Modifications to vehicles were extended to 19 individuals at a cost of $10,852.

Various technical aids and modifications were provided to 23 seriously injured workers at a cost of $15,404.

Many seriously injured workers require daily personal care and elect to remain at home rather than receive institutional care. Personal Care Allowances are paid in consideration of care provided in the home and was extended to 67 individuals at a cost of $222,788.

A total of 427 individuals, including dependent spouses and children of fatally injured workers, received counselling service.

The average age of workers receiving Vocational Rehabilitation assistance in 1981 was 39.

Sixty-five requests were received from injured workers for full or partial commutation of their monthly pension of which 38 requests were approved.

The Board wishes to extend its appreciation to the many employers, unions, agencies and individuals for their assistance in the rehabilitation of injured workers.

HISTORICAL BENEFIT DATA

Percentage of Earnings For Payment Of Compensation

66 2/3 to 30 June 1945
75 % from 1 July 1945

Maximum Annual Earnings For The Payment Of Compensation

$ 2,000	to 30 June 1945
2,500	from 1 July 1945
3,000	from 1 April 1948
4,000	from 1 January 1953
5,000	from 1 July 1956
6,000	from 1 July 1960
6,600	from 1 July 1968
8,400	from 1 July 1972
10,000	from 1 July 1974
14,000	from 1 January 1976
16,000	from 1 January 1977
18,000	from 1 January 1978
20,000	from 1 January 1979
22,000	from 1 January 1980
24,000	from 1 January 1981
26,000	from 1 January 1982

Maximum Weekly Compensation

$ 25.64	to 30 June 1945
36.06	from 1 July 1945
43.27	from 1 April 1948
57.69	from 1 January 1953
72.12	from 1 July 1956
86.54	from 1 July 1960
95.19	from 1 July 1968
121.15	from 1 July 1972
144.23	from 1 July 1974
201.92	from 1 January 1976
230.77	from 1 January 1977
259.62	from 1 January 1978
288.46	from 1 January 1979
317.31	from 1 January 1980
346.15	from 1 January 1981
375.00	from 1 January 1982

Minimum Weekly Compensation (for injuries occurring prior to 1 January 1980)

$ 12.50	or wages if less from 2 July 1930
15.00	or wages if less from 1 July 1945
15.00	for permanent disability 1 April 1949
20.00	for permanent disability 1 June 1952
*25.00	from 1 July 1955
*30.00	from 1 July 1959
*32.50	from 1 July 1965
*36.00	from 1 July 1968
*40.00	from 1 April 1971
*75.00	from 10 May 1974
*93.74	from 1 April 1977
**116.54	from 1 January 1980
**133.85	for workers under age 65 and $122.31 for those over age 65, from 1 January 1981

* Wages if less for temporary disability.

** Applies to workers with total impairment of earning capacity due to injury.

Waiting Period

1930-37 - 7 days
1937 - 3 days
1945 - 3 days with benefits payable from commencement if disability exceeds 3 days
1 June 1950 - 1 day, benefits payable from day following injury

Surviving Spouse's Monthly Pension

$ 40.00 to 30 June 1947
45.00 from 1 July 1947
50.00 from 1 April 1948
60.00 from 1 June 1951
75.00 from 1 July 1955
100.00 from 1 July 1960
110.00 from 1 May 1962
115.00 from 1 July 1968
127.50 from 1 April 1971
133.90 from 1 January 1972
275.00 from 1 January 1974
325.00 from 1 April 1977
325.00 + *75.00 from 1 January 1980
325.00 + *115.00 from 1 January 1981

* Supplement applies to dependent spouses receiving pensions for fatalities occurring prior to 1 January 1980. Supplement continues to the first of remarriage or attainment of age 65. For fatalities occurring on or after 1 January 1980 the dependent spouse receives an allowance equal to 75% of the deceased spouse's gross earnings bound by the minimum and maximum of compensation, indexed annually with the Consumer Price Index and reduced by applicable benefits under the Canada Pension Plan after twelve consecutive months from the commencement of loss. See The Workers' Compensation Act, 1979, for detailed information regarding time limits, etc.

Children's Monthly Pension	Orphans
$10.00 to 30 June 1947	$ 15.00
12.00 from 1 July 1947	
15.00 from 1 June 1950	
20.00 from 1 June 1951	20.00
25.00 from 1 June 1952	30.00
30.00 from 1 July 1955	35.00
35.00 from 1 May 1957	45.00
45.00 from 1 May 1962	60.00
50.00 from 1 July 1968	65.00
52.50 from 1 January 1972	68.25
65.00 from 1 January 1974	80.00
85.00 from 1 April 1977	110.00
85.00 + *5.00 from 1 January 1980	**135.00
85.00 + *15.00 from 1 January 1981	

* Monthly supplement applies to children receiving pensions for fatalities occurring prior to 1 January 1980. For fatalities occurring on or after 1 January 1980 a monthly payment of $90.00 per child is payable on remarriage of dependent spouse. Payment continues to age 16. The benefit is indexed annually with the Consumer Price Index and offset with applicable benefits received under the Canada Pension Plan after twelve months from the commencement of loss.

** Orphan's benefit of $135.00 per month applies to fatalities occurring before and after 1 January 1980. Payment is to age 16 with extension to the end of the school term in which the child reaches age 21 if, in the opinion of the Board, it is desirable to further the education of the dependent child. The benefit is indexed annually with the Consumer Price Index and offset with appropriate survivor's benefits received under the Canada Pension Plan after twelve months from the commencement of loss.

PROVINCIAL AUDITOR

The assistance received from the Provincial Auditor and his staff is much appreciated.

STAFF

At 31 December 1981 the Board had a total of 228 employees, 211 at head office in Regina and 17 at the Saskatoon Branch Office.

On 31 December 1981 Mr. A. C. Matheson retired as Assistant Director of Assessments. He had served the Board in various capacities with the Assessment Department from 16 November 1959, a total of some 22 years.

The Board is grateful to its staff for the conscientious manner in which they have administered the Act.

Board policy is to promote from within whenever consistent with organizational needs and employees are encouraged to prepare for promotion.

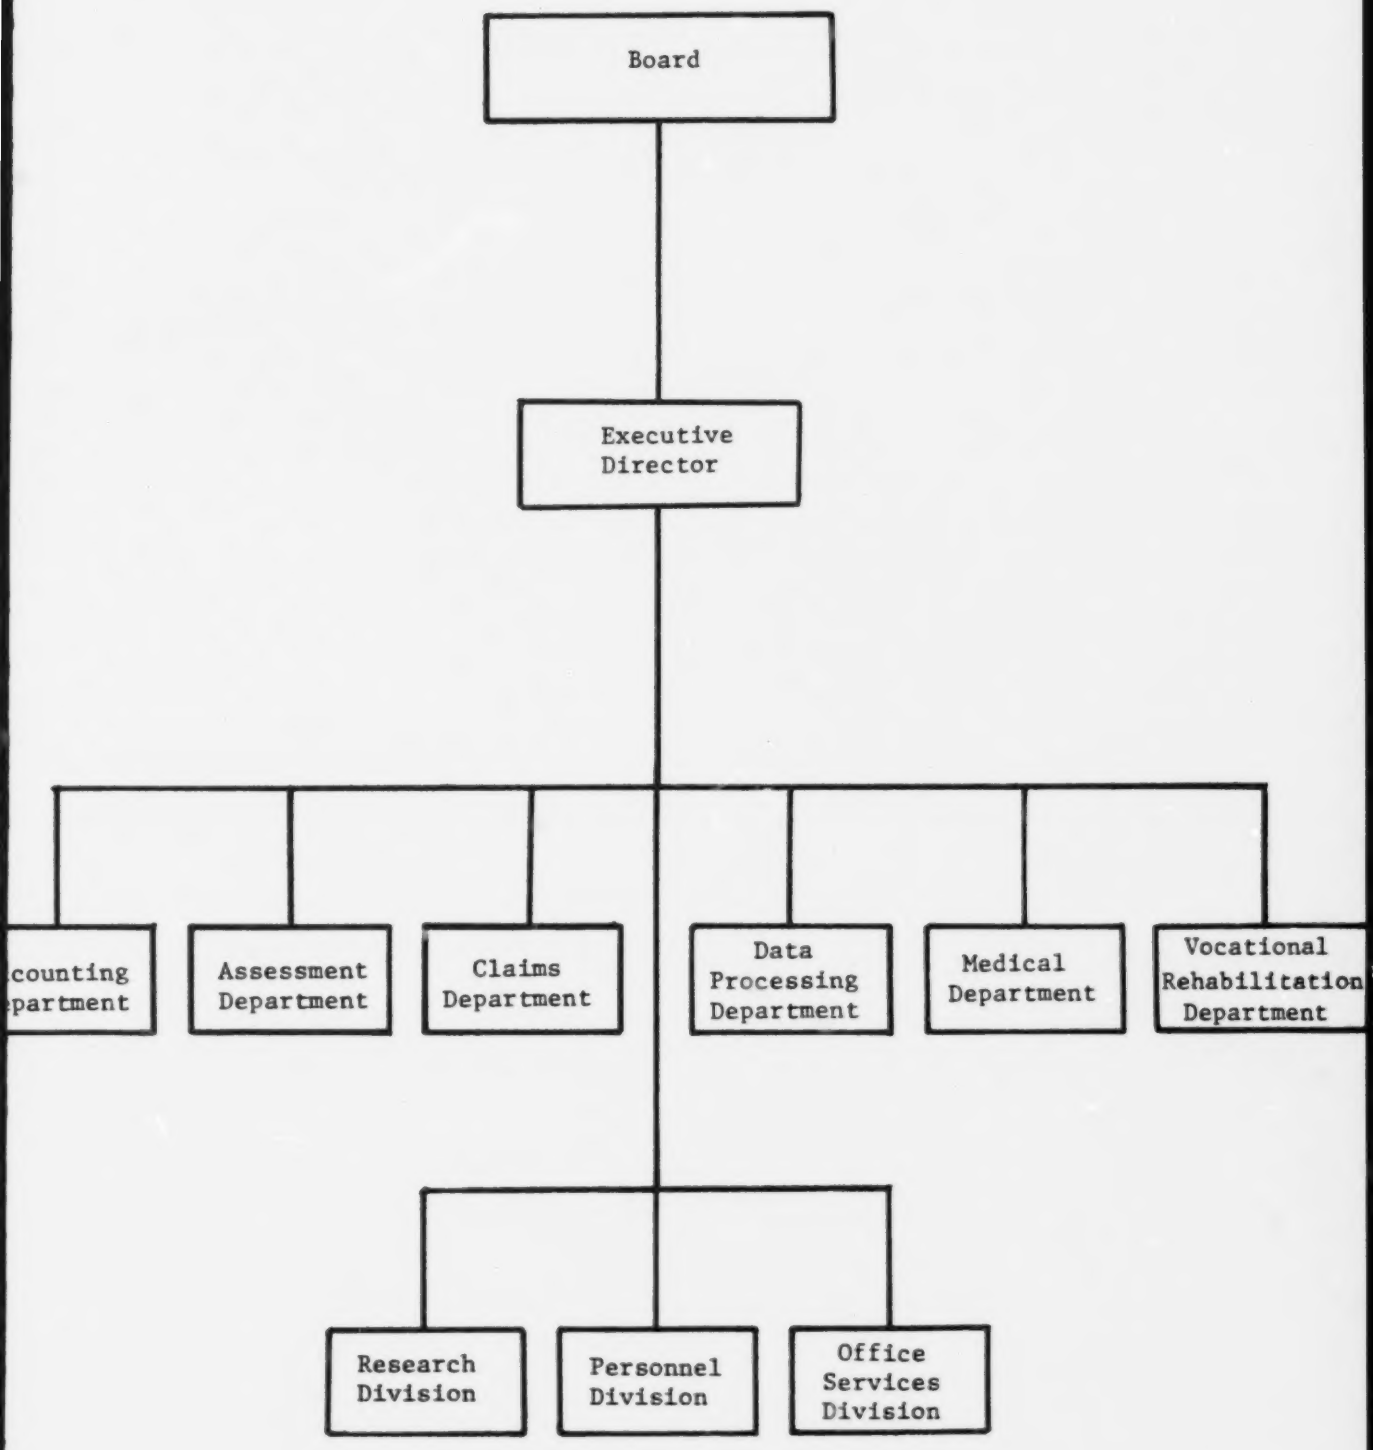
Brian King, Chairman

M. G. Bourne, Board Member

H. S. Elkin, Board Member

THE WORKERS' COMPENSATION BOARD (SASKATCHEWAN)

ORGANIZATION CHART

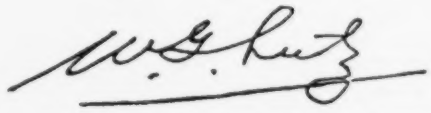


AUDITOR'S REPORT

To the Members of the Legislative Assembly
of the Province of Saskatchewan

I have examined the balance sheet and the supporting statement of investments of The Workers' Compensation Board (Saskatchewan) as at December 31, 1981 and the statements of transactions of the injury reserve, the pension reserve, the limited compensation reserve, the disaster reserve and second injury reserve, and the statements of investments purchased and investments sold for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of The Workers' Compensation Board (Saskatchewan) as at December 31, 1981 and its transactions for the year then ended in accordance with the Board's stated accounting principles, as described in Notes 1 to 6 to the financial statements, applied on a basis consistent with that of the preceding year.



Regina, Saskatchewan,
March 8, 1982.

W. G. Lutz, F. C. A.
Provincial Auditor.

THE WORKERS' COMPENSATION BOARD (SASKATCHEWAN)

ACCOUNTING POLICIES AND NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 1981

1. Financial Statements and Reserves

A statement of transactions for The Workers' Compensation Board Injury Fund has not been prepared. In its place individual statements of transactions for the Pension Reserve, Limited Compensation Reserve, Injury Reserve, Disaster Reserve and Second Injury Reserve have been prepared. In addition, the Board maintains a Claims Cost Outstanding Reserve, and a Rehabilitation Reserve, the transactions of which are presented in the Statement of Injury Reserve Transactions.

Investment income is allocated to the Reserves and the 1980 General Employers' Operating Surplus Balances as follows:

Disaster Reserve		
To the extent reserve depleted	$3,319,436	
Additional Allocation	701,783	$ 4,021,219
Second Injury Reserve		
To the extent reserve depleted	413,885	
Additional allocation	185,908	599,793
Pension Reserve		
Actuarial requirement	3,446,664	
Additional allocation	8,708,570	12,155,234
Rehabilitation Reserve		
Allocation		317,400
1980 General Employers' Operating		
Surplus Balances as at December 31, 1981		8,876,356
		$25,970,002

These reserves have been established within the provisions of The Workers' Compensation Act, 1979. These provisions require the Board to establish reserves which in its opinion, will prevent employers in the future from being unduly or unfairly burdened by future compensation for accidents which have occurred.

The purposes of the reserves are described below:

a) The pension reserve is established to set aside amounts to provide for the future payments on established pensions. The capitalization of pensions is calculated on an actuarily determined basis. The actuary estimates that the reserve as at December 31, 1981 is in excess of requirements by $18,600,000.

b) The limited compensation reserve is created to provide payment for permanent disability or dependency where entitlement is established for a definite period.

c) The injury reserve is the revenue of The Workers' Compensation Board Injury Fund which has not been set aside to a specific reserve.

d) The disaster reserve is established to set aside amounts to prevent adverse financial consequences to an individual employer or an industry classification as a result of excessive costs of any disaster or extra-ordinary circumstances.

e) The second injury reserve is established to set aside amounts to relieve employers of compensation costs which may occur as a result of workers having a prior functional impairment.

f) The claims costs outstanding reserve is established to set aside amounts for accidents which have occurred and have not been reported and for additional costs arising, in respect of 1981 and prior years claims, plus the capitalized value of expected pensions.

g) The rehabilitation reserve is established to set aside amounts for development of facilities to provide rehabilitation to any injured worker re-entering the workforce or to assist in lessening any handicap caused by his injury.

2. Investments

Investments, with the exception of equities, are recorded at cost at the time of purchase. Discounts or premiums thereon are amortized on a straight-line basis over the period remaining to the maturity date of the investment.

The following summary reflects the amount still to be amortized to bring the value of the investments to par.

	December 31, 1981	December 31, 1980
Investments at par value	$260,428,210	$227,666,684
Less unamortized discounts and premiums	10,996,239	6,891,731
	$249,431,971	$220,774,953

Equities are recorded on a 5 year moving average based on market values as at December 31 of each year. This represents a change in accounting policy from previous years, in that equities were previously recorded at cost. This change in accounting policy has not been retroactively applied, had it been so the effects on the current and prior years financial statements would not have been material.

Under the present policy any unrealized gain or loss resulting from the revaluation of equity investments is included in investment income for the year. Accordingly investment income for the year to December 31, 1981 has been reduced by $85,856, representing the decrease in value of equity investments from their previous carrying value to the value as determined under the new accounting policy.

The approximate market value of the investments excluding mortgages as at December 31, 1981 was $163,172,368 (1980 $160,467,608).

Details of the composition of the investments may be seen in Statement 7. Pursuant to the requirement of Section 151 of The Workers' Compensation Act, 1979 investments purchased and investments sold during the year are detailed in Statements 8 and 9. The proceeds from the sale of investments were $1,122,622 less than book value carried in the accounting records. This difference was written off in 1981 against investment income earned.

Investments totalling $4,005,196 matured during the year.

3. Assessment Income

At the beginning of each year an assessment is levied on employers by applying their industry assessment rate to their estimated payrolls. Their assessment levy is due and payable by installments within the current year. At year end assessment income is adjusted based on a review of the employers actual payrolls.

4. Fixed Assets

Office furnishings are capitalized at the time of purchase but the acquisition of office machines and other equipment is charged to administration expense in the year of purchase. The annual depreciation expense is determined as follows:

Office furnishings, on a straight-line basis at the rate of 10% per annum.
Building on a straight-line basis at the rate of 2 1/2% per annum.

Land, building and office furnishings are valued at cost and the balance sheet amounts are expanded in the following summary:

	1981	1980
Land	$ 162,195	$ 157,420
Acquired during year	-	4,775
	162,195	162,195
Building	2,308,133	2,308,133
	2,470,328	2,470,328
Less accumulated depreciation	797,854	753,434
	1,672,474	1,716,894
Office furnishings	302,200	261,154
Less accumulated depreciation	148,072	117,852
	154,128	143,302
Land, building and office furnishings per balance sheet	$1,826,602	$1,860,196

The current year provision for depreciation on the building, $44,420 and office furnishings $30,220 have been charged to administration expense Statement 10.

5. Staff Superannuation

Superannuation costs for current services are being charged to the injury reserve on a current basis.

An actuarial review of the staff superannuation fund as at December 31, 1979 indicated an unfunded liability of $1,075,969. Effective January 1, 1980 the Board adopted a policy of contribution at the rate of 1.4 to 1. The actuary estimates this ratio will retire the deficit over the anticipated working life of the contributors.

6. Actuarial Certificate

The Actuarial Certificate for December 31, 1981 covering the sufficiency of the pension reserve and the combined claims cost outstanding reserve and the general employers' operating balance injury reserve is presented below.

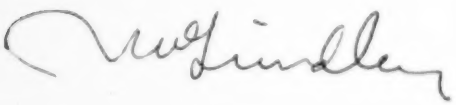
WILLIAM M. MERCER LIMITED

ACTUARIAL CERTIFICATE

(Forming part of a detailed actuarial report
on the liabilities as at December 31, 1981.)

I hereby certify that, in my opinion, the pension fund of $127,800,000 at December 31, 1981 exceeds the amount required to make sufficient provision for the obligations to pensioners, spouses and children as provided in The Workers' Compensation Act, 1979. The excess is estimated to be $18,600,000.

In addition, my estimates indicate that the claims cost outstanding reserve and the general employers' operating balance accident reserve exceed the expected payments, other than those payments provided for by the pension fund, on claims incurred prior to 1982.



Robert W. Grindley
Fellow of the Canadian Institute of Actuaries
Fellow of the Society of Actuaries

INDUSTRIAL CLASSIFICATION

Industry Code	Industry Description
A01	Light Agricultural operations
A02	Farming and ranching
A03	Grain elevators and inland terminals
B01	Building construction, and related trades
C01	Dry goods, drugs and similar commodity marketing
C02	Wholesale implements without service
C03	Department stores, food outlets and similar commodity marketing
C04	Co-Operative Associations
C05	Lumber yards and builders supplies
C06	Automotive and implement sales and service
D01	Open seam and pit mining
D02	Conventional and solution potash mining and refining
D03	Operation of oilwells
D04	Oilwell maintenance, water well drilling
D05	Oil and gas drilling and service rigs
D06	Hardrock mining, shaft sinking and cross cutting
F01	Logging of saw timber, pulpwood, ties, poles and posts
F01-05	Non-conventional logging
F02	Sawing, planing, stud and chip mills, peeling, preserving and creosoting
F03	Pulp and paper mills
F04	Veneer-plywood and hardboard manufacturing
G01	School Boards, Universities and Community Colleges
G02	Hospitals, Nursing Homes, Funeral and Ambulance Service
G03	Cities, Towns, Villages, Indian Bands and Northern Community Areas
G04	Rural municipalities
G05	The Crown in right of Saskatchewan
M01	Printing, publishing and manufacturing stationery and small wares
M02	Distilleries, breweries and bottle exchanges
M03	Refineries, operation of gas and oil pipelines and manufacturing cement
M04	Bakeries, dairy products, soft drinks and food preparation
M05	Sodium sulphate production
M06	Flour mills, seed and vegetable oil plants, manufacturing salt and chemicals
M07	Processing meat, poultry and fish
M09	Metal manufacturing, machine shop, concrete block and ready mix
M09-02	Manufacturing Agricultural equipment
M10	Metal foundries and mills
R01	Road construction, earthwork, sewer and water and tunnelling
S01	Offices, professional, financial, et cetera as a business
S01-04	Union and association delegates
S02	Hotels, motels, restaurants and catering, commercial laundries and cleaners
S03	Caretaking, commercial maintenance and service clubs
S04	Architecture, surveying and engineering
T01	Bus transportation, messenger service and taxicabs
T04	Commercial trucking, warehousing
T05	Railway
T05-02	Commercial, chartered and pilot training flying; repair of aeroplanes
T05-03	Aerial application and surveying, helicopters and incidental repair
U01	Telecommunications
U03	Generation and transmission of electric systems

EMPLOYERS ASSESSED BY INDUSTRY CODE DURING 1981
WITH PAYROLL ESTIMATES FOR THE YEAR

TABLE 1

INDUSTRY CODE	NUMBER OF EMPLOYERS	PAYROLL COVERED BY ASSESSMENTS LEVIED
A01	316	$ 12,433,495
A02	690	7,542,128
A03	10	45,766,167
